

NRG Grower

A low cost, high protein and energy grower loose mix

A quality, high protein and energy, dry season supplement formulated to enhance growth rates of steers, heifers and sheep. Is a perfect product for backgrounding stock and growing out cattle or sheep. It is an ideal supplement for maiden heifers and ewes to aid in reaching joining weight quickly and first calf heifers to provide higher protein and energy while they are rearing a calf.

Is a high quality, protein meal based supplement that does not contain any grain, energy is derived from protein meal.

Can be fed all year round in any situation, whether you have high or low quality feed.

Provides very high energy (from 9MJ/kg) which aids in faster finishing of stock, therefore quicker turnover.

Is very effective in increasing weight gains on dry, low quality pastures.

Easy and safe to feed - no grain induced problems.

Is mainly used for dry stock but can be used with breeders if pasture is limited or if breeders require more protein and energy to improve condition.

Provides supplementary protein, energy and minerals cost effectively for high growth rates and production through the dry season.

Nutramix offers unique flexibility with various urea and salt combinations to provide a customised dry lick to suit your situation and your required intake. We can offer other variations in dry licks such as Sulphur, Magnesium, Trace Elements etc.

Advantages

Aids in the efficient utilisation of dry feed

Substantially improves growth rates and grows out stock

Improves turnover of stock and carrying capacity

Puts a shine on the coat of cattle

Safe to feed, with no metabolic issues

Improves milk production, calf and lamb growth rate and weaner weights

Reduces the incidence of bloat, prussic acid poisoning and grass and oat tetany

Improves general herd or flock health

Results in lower vet costs and time spent administering injections

Extremely cost effective as shown on the cost benefit analysis overleaf

High nutritional analysis, please compare with your current product
