

BIG HEAD MIX

High calcium and phosphorus supplement for reducing the effects of Big Head in horses

- High calcium and phosphorus based supplement designed to reduce the incidence of Big Head in horses grazing high oxalate pastures including buffel grass, setaria and pangola grass.
- Must be fed when these pastures are lush and oxalate concentrations are at their highest.
- Contains high quality protein meals and a high concentration of trace minerals and vitamins to increase production and performance on lush pastures.
- Self Limiting and can be fed ad-lib in the paddock.

Protein Analysis
