## Dairy Pellets 18%

Premium pellet for maximum milk, fertility and health

- ✓ Dairy Pellets are a premium quality pellet designed to maximise milk production, fertility and herd health.
- ✓ These pellets are a highly digestible, high protein and energy pellet formulated for a high producing dairy herd.
- ✓ Contains high quality protein meals to promote maximum levels of milk production and milk protein.
- ✓ Dairy Pellets are safe to feed; supplying high levels of buffers to maintain rumen pH and reduce the incidence of grain derived metabolic problems such as acidosis and bloat – promoting high milk butterfat levels.
- ✓ Has adequate fibre levels to promote rumination, creating a healthy rumen environment that will improve utilisation of feed and maintain safety of feeding.
- ✓ Contains very high levels of vitamins and minerals providing support to high producing cows.
- ✓ Formulated to optimise fertility and herd health and minimise the incidence of health related issues such as retained afterbirth.
- ✓ This is a premium product containing only high quality ingredients, with an unmatched nutritional analysis when compared to similar products. We encourage you to compare our product analysis with any competitors.
