# Dairy Phosphomix

## Economical high vitamin and mineral supplement

- ✓ Dairy Phosphomix is the premium product on the market to providing 90g /kg of Phosphorus, 30g/kg of Sulphur and an unmatched vitamin / mineral content to enhance fertility and herd health in breeders.
- ✓ Is an extremely cost effective supplement costing from as low as 5 cents/head/day to significantly increase the fertility and health of your herd. Indicative costs during the joining period are only \$6 – \$9 per head, based on a 4 month joining period.
- ✓ Requires an improvement of only 1% calving rate to directly pay for the supplement.
- ✓ Is formulated to provide very high levels of vitamins and minerals at an extremely economical cost.
- ✓ Supplies the most needed vitamins and minerals to enhance conception.
- ✓ During periods of lush green pasture, vitamins and minerals are the limiting nutrients. By supplementing with Dairy Phosphomix, breeders are supplied with the much needed vitamins and minerals to improve fertility and general health.
- ✓ Supplementing with Dairy Phosphomix should commence before calving to provide the breeder with vitamins and minerals required for the calving period and continue until the end of the joining period.
- ✓ The objective of Dairy Phosphomix is to provide the breeder every opportunity to cycle and hence get in calf.

### Advantages

- Substantially improves breeder fertility
- Improves breeder health
- Improves milk production, calf growth rate and weaner weights
- Reduces the incidence of grass tetany, milk fever, goitres and hoof problems
- Improves calf health and vitality at birth
- Improves time from calving to conception
- Improves growth rate of breeder and calf
- Improves ease of calving during the calving period
- Reduces the incidence of retained afterbirth, still births and prolapse
- Improves semen quality and testicular development in bulls

### Vitamin / Mineral Analysis (per kg)

Calcium	Min.	150 g
Magnesium	Min.	15 g
Phosphorus	Min.	90 g
Sulphur	Min.	30 g
Cobalt	Min.	30 mg
Copper	Min.	450 mg
Iodine	Min.	12 mg
Iron	Min.	150 mg
Manganese	Min.	675 mg
Selenium	Min.	12 mg
Zinc	Min.	1,650 mg
Vitamin A	Min.	90,000 IU
Vitamin D	Min.	12,000 IU
Vitamin E	Min.	300 mg
