# Layer Pellets 18%

## Premium Quality High Energy Pellet for Egg Production

- ✓ Layer Pellets are a commercial quality, premium pellet formulated to increase egg production and quality. These pellets aid in the prevention of nutritional deficiencies in laying hens.
- ✓ These pellets are designed for high producing layers, with high lysine, methionine content, high vitamin / mineral profile for egg hardness and quality and yolk colouring which provides rich, golden yolks.
- ✓ This is a high energy pellet, formulated from high quality ingredients at a very affordable price.
- ✓ Contains high protein, energy, lysine and methionine levels for optimal egg production.
- ✓ Layer Pellets are one of the Nutramix premium poultry range with high quality ingredients and a nutritional analysis that is unmatched. We encourage you to compare our product analysis against any competitors.
- ✓ Have your hens produce as well and similar quality to a commercial operation using Nutramix Layer Pellets.

Analysis per kg							
Protein	Min.	18.00	%	Zinc	Min.	130.00	mg
