# Nutra Pro 40

## High energy - high protein pellets

- ✓ Formulated for stock with access to low quality pasture or with higher protein and energy requirements such as lactating or joining cows / ewes and dry stock that are being finished.
- ✓ These pellets will stimulate intakes of dry, low protein paddock roughage to ensure improved pasture utilisation while maintaining or improving stock condition.
- ✓ Contains high quality protein meals which provide bypass protein. Stock respond very well to high bypass protein diets and together with the other quality ingredients increases growth rates, milk production and rumen function.. Improves growth rate, herd health, fertility and milk production.
- ✓ Will maintain, grow or fatten stock depending on intake. Contains high levels of vitamins and minerals.
- ✓ Has adequate fibre levels to promote rumination, creating a healthy rumen environment that will improve utilisation of feed and maintain safety of feeding.
- ✓ This is a premium product containing only high quality ingredients, with an unmatched nutritional analysis. We encourage you to compare our product analysis with any competitors.
- ✓ It is safe to feed; supplying high levels of buffers to maintain rumen pH and reduce the incidence of grain derived metabolic problems such as acidosis, laminitis and bloat.

Analysis per kg						
Protein	Min.	40	%	Copper	Min	35 mg
Energy (ME)		11.5	MJ	Iodine	Min.	1 mg
Crude Fat	Max.	5.5	%	Iron	Min.	90 mg
Crude Fibre	Max.	12	%	Manganese	Min.	80 mg
Salt	Min.	0.6	%	Selenium	Min.	0.85 mg
Calcium	Min.	1.3	%	Zinc	Min.	150 mg
Phosphorus	Min.	1	%	Vitamin A	Min.	25,000 IU
Magnesium	Min.	0.65	%	Vitamin D	Min.	800 IU
Sulphur	Min	0.60	%	Vitamin E	Min.	40 mg
Cobalt	Min.	2	mg	Monensin or Lasalocid	Min.	25 mg 30 mg

Contains 27.5 mg/kg Monensin Sodium or 33 mg/kg Lasalocid as an aid to improve growth rate and feed efficiency

### Feeding guide

- Commence feeding at a rate of 0.5% of body weight / head / day. Increase gradually over a 3 week period to 1 - 1.5% of body weight or at rate required to achieve target feeding goals.
- Suitable for cattle and sheep.
- Ensure good quality roughage such as pasture, hay or straw is available at all times.
- Quality, large pellets able to be fed on the ground.
- Feed in troughs, feeders or trail on the ground.
- Ensure sufficient trough space to minimise competition.
- Ensure supply of fresh, clean drinking water at all times.
- Call a Nutramix Representative for more information.

**Storage** - Store in a cool, dry place

**Available in** : 25 kg bag; Bulk Bag or Bulk

### Pellet advantages.

- Easy to handle, can be augered and stored in silo.
- Runs very well in self feeders.
- Improved digestibility.

### Warning

- Use strictly as directed.
- For Animal Treatment Only.
- Do not feed to other animals – may be fatal.
- **This product does not contain restricted animal material.**
