PERFORMANCE STOCKFEED AND SUPPLEMENTS

## Sheep Finisher 16%

Formulated to achieve high growth rates to fatten lambs

- ✓ This is a palatable, high energy and protein ration designed to achieve high growth rates and fatten ewe and lambs.
- ✓ Is safe to feed; supplying high levels of buffers to maintain rumen pH and reduce the incidence of grain derived metabolic problems such as acidosis and bloat.
- ✓ It is formulated to reduce the incidence of urinary calculi (water belly).
- ✓ Has adequate fibre levels to promote rumination, creating a healthy rumen environment that will improve utilisation of feed and maintain safety of feeding.
- ✓ Contains high levels of vitamins and minerals to enhance growth and flock health.
- ✓ Suitable to be fed to all classes of sheep that need to be finished quickly.
- ✓ This is a premium product containing only high quality ingredients, with an unmatched nutritional analysis compared to similar products. We encourage you to compare our product analysis with any competitors.

**Feeding guide**

- Commence feeding at a rate of 0.25% of body weight / head / day. Increase gradually over a 3 week period to 0.75-1.0% of body weight or at rate required to achieve target feeding goals.
- Introduce pellets gradually and do not allow pellet supply to run out.
- Feed in troughs or feeders. When feeding in self feeders, pellet intake can be regulated by adjusting the shutters. Lowering the shutters will reduce intake.
- Ensure good quality roughage such as pasture, hay or straw is available at all times.
- Ensure sufficient trough space to minimise competition.
- Ensure supply of fresh, clean drinking water at all times.
- Call a Nutramix Representative for more information.
