

# Sheep Nuts 21%

*High energy pellets to maintain condition of stock*

- ✓ A high protein and energy pellet for sheep with access to low quality pasture or have requirements for higher energy such as lactating or joining ewes.
- ✓ Maintains, grows or fattens sheep depending on intake.
- ✓ Contains high levels of vitamins and mineral to enhance growth rate, flock health, fertility and milk production.
- ✓ Now be produced in extra large 20mm nuts, enabling cattle to eat the nuts from the ground easily. They are very hard nuts that don't allow the cattle to crush if trodden on. This greatly improves the ease of feeding and minimises any loss of product while being fed on the ground.
- ✓ These high energy pellets will stimulate the intake of dry, low protein pasture to ensure improved pasture utilisation and an improvement in stock condition.
- ✓ Contains adequate fibre levels to promote rumination, creating a healthy rumen environment that will improve utilisation of feed and maintain safety of feeding.
- ✓ Safe to feed; supplying high levels of buffers to maintain rumen pH and reduce the incidence of grain derived metabolic problems such as acidosis and bloat.

# Sheep Nuts 21% Nutritional Analysis

## Vitamin / Mineral Analysis (per kg)

Protein	21.00 % min	Magnesium	0.40 % min	Selenium	0.85 mg min
Energy (ME)	11.50 MJ	Sulphur	0.35 % min	Zinc	150.00 mg min
Crude Fat	4.00 % max	Cobalt	2.00 mg min	Vitamin A	35,000 IU min
Crude Fibre	12.00 % max	Copper	8.00 mg min	Vitamin D	800 IU min
Salt	1.00 % min	Iodine	1.00 mg min	Vitamin E	40.00 mg min
Calcium	1.20 % min	Iron	90.00 mg min	Monensin	30.00 mg min
Phosphorus	0.50 % min	Manganese	80.00 mg min		

Contains 30 mg/kg Lasalocid as an aid to improve growth rate, feed efficiency and the prevention of coccidiosis.

### FEEDING GUIDE

- Commence feeding at a rate of 0.5% of body weight / head / day. Increase gradually over a 3 week period to 0.75 - 1.0% of body weight or at rate required to achieve target feeding goals.
- Ensure good quality roughage such as pasture, hay or straw is available at all times.
- Feed in troughs, feeders or trail on the ground. Quality, large pellets able to be fed on the ground.
- When feeding in self feeders, pellet intake can be regulated by maneuvering the shutters. Lowering the shutters will reduce intake.
- Ensure sufficient trough space to minimise competition.
- Ensure supply of fresh, clean drinking water at all times.
- This pellet can be used for both cattle and sheep.
- Call a Nutramix Representative for more information.

### PELLET ADVANTAGES

- Easy to handle, can be augered and stored in silo.
- Runs very well in self feeders.
- Improved digestibility.
- Minimises wastage, reduces dust & eliminates separation of ingredients.

**AVAILABLE IN:** 20kg bag, 25kg bag, Bulk bag, Bulk

**STORAGE:** Store in a cool, dry place

### WARNINGS

- Use strictly as directed.
- For Animal Treatment Only.
- Do not feed to other animals - may be fatal.
- This product does not contain restricted animal material.
